COCHLEUM
Bio-Derived Cosmetic Ingredients

REGULATORY & COMPLIANCE STATEMENT

Version 1.0 | 13.10.2026

SNAIL SECRETION FILTRATE

Regulatory and compliance information for professional B2B evaluation

INCI	Snail Secretion Filtrate
Product type	Bio-derived cosmetic raw material / ingredient
Biological source	Filtered secretion from farmed Helix aspersa / Cornu aspersum snails
Supplier	COCHLEUM brand - Polish Snail Holding, ul. Stanisława Sulimy 1, 82-300 Elbląg, Poland

REGULATORY STATUS AND INTENDED USE

Intended use	Professional cosmetic formulation and B2B ingredient supply. The material is intended for further formulation and is not a finished cosmetic product.
EU cosmetic framework	The ingredient may be used in cosmetic formulations that must be assessed by the customer / Responsible Person for compliance with Regulation (EC) No 1223/2009 and other applicable requirements.
Safety classification	According to the current Safety Data Sheet, the product is not classified as hazardous under Regulation (EC) No 1272/2008 (CLP).
Safety data sheet	SDS prepared in accordance with Commission Regulation (EU) 2020/878 amending Annex II to REACH.

QUALITY, MICROBIOLOGY AND TRACEABILITY

Quality specification	Product parameters are defined in the applicable Product Specification and verified through batch quality control.
Microbiological control	Typical specification: total aerobic mesophilic count < 10 CFU/g; pathogens absent. Batch testing may include Staphylococcus aureus, Candida albicans, Escherichia coli and Pseudomonas aeruginosa.
Batch traceability	Each production batch is identified and linked to applicable production, quality-control and release documentation.
Preservation system	Variant-specific. The applicable preservative system and composition are stated in the relevant Product Specification, SDS and/or batch documentation.

DOCUMENTATION PACKAGE

Available documentation: Technical Data Sheet (TDS), Safety Data Sheet (SDS), Product Specification and batch-specific Certificate of Analysis (CoA). Additional supporting information may be provided according to project requirements.

COMPLIANCE STATEMENT

Based on the available technical, safety and quality documentation, COCHLEUM supplies Snail Secretion Filtrate as a controlled B2B cosmetic raw material supported by defined specifications, batch traceability and quality documentation. Final regulatory compliance, safety assessment, compatibility and suitability of the finished cosmetic product remain the responsibility of the customer and the applicable Responsible Person / safety assessor.
